* Research Agenda

The research literature deals with the diversity of the economy in general and its branches of public finance and tax legislation, specifically the tax updates regarding the application and problems arising from the collection and guarantees of implementation of the duties of the tax administration and the tax and their mutual rights as well as the tax immunity of some categories

There is scope for writing about the International Monetary Fund, its working regulations, developments in the lending tools of member countries and the specifics of dealing with low-income countries. The research will be more specialized in dealing with the effects of the loans granted by the Fund to its members. Fund lending is one of the means to reform the sustainable budget deficit in developing countries .in particular

The research specialization in dealing with the debts of Iraq and how to find ways out of the vicious circle of debt, specifically with the fluctuations that affect oil prices globally and affect the revenues of oil states and the need to correct oil prices and commensurate with the political and oil importance of this natural resource and the overall

return on the oil economies and what is imperative It has general
.revenue diversification

In terms of research diversity, the field of bank guarantee was addressed
in how companies deal with banks and the impact on investment.
